

Instruction for
University students, High school students &
In-service Teachers presentation

Plan for February meeting

2月アジア・アセアン教育研究

センター国際会議実施案

Who can attend the meeting 参加者

Please select 6 presenters from one University.

Our image is two High school students, two University students and two in-service teachers. However it is just our image. In case, you may select six University students.

e.g.

(1) 6 University students

(2) 2 University students, 2 High school students, 2 In-service teachers

(3) 2 University students, 4 High school students

(4) 2 University students, 1 High school students, 3 In-service teachers

(5) any arrangement is okay. But within 6 people.

1) University Students who could be possible TWINCLE participants next fiscal year (April 2021 to March 2020).

Both post-graduate and under-graduate can be candidates of TWINCLE program.

2) High school students who are willing to present their research achievements at the International research session.

3) In-service teachers who are willing to join the International Research session as a presenter.

Materials required for those attending the session 参加者提出物

International research session 国際研究発表会.

For high school students, University students and In-service teachers.

All contents in the presentation should be your original. If you refer data, picture, etc. from some other article, please clearly indicate it.

1) ABSTRACT: 1-min abstract movie of the presentation (.mp4). (To be published on-demand on 2/8)

Please use the following format:

Slide No.1: Title and authors.

Slide No.2: Purpose, Materials and Methods

Slide No. 3: Results and discussion

2) Please save and submit your ABSTRACT Presentation in a PDF format file, too.

3) FULL PRESENTATION: 5-min presentation movie (.mp4). (To be presented in semi-on-demand on 2/14)

Please make a 6-slides PowerPoint file of your presentation and then add a voice explanation:

The format is the following:

Slide No.1: Title and authors.

Slide No.2: Research background and purpose.

Slide No.3: Materials and Methods

Slides No.4 and N. 5: Results and short explanation

Slide No. 6: Discussion and conclusion.

Assistant Professor Dr. Jose will prepare examples for your convenience.

We are preparing instruction manual for making the presentation movie.
