Before applying

Dear Applicants,

welcome to our [online application system](#).

We are pleased that you have decided to apply for the Stipendium Hungaricum Scholarship Programme.

Our aim is to receive as many successful applications as possible, so we have put together the following guide to ensure that every detail of your application is clear and easy to understand.

The guide aims to familiarise applicants with the structure and elements of the online application system and to provide information on all the fields, sections and tabs to be filled in before completing them.

The following description covers the different sections of the application system, describing in detail what data to enter for each section and what documents to upload.

In the following introduction, you will find useful information about the 2024/2025 application cycle.

To ensure a successful application, we strongly advise you to read our application guide carefully.

Please make sure to **read the Call for Applications** that contains all the necessary and useful application information, before starting the application process. You can reach the Call for Applications here: <https://stipendiumhungaricum.hu/apply/>

Call for Applications for bachelor's, master's, one-tier master's and non-degree programmes:
https://stipendiumhungaricum.hu/uploads/2020/03/BA_MA_OTM_Call_for_Applications_2024_2025_with_students_at_risk.pdf

Call for applications for doctoral programmes:
https://stipendiumhungaricum.hu/uploads/2020/03/PhD_Call_for_Applications_2024_2025_with_students_at_risk.pdf

If you are applying for the Students at Risk Subprogramme, please read paragraph 4 of the Call for Applications to see the differences between the application process of the Students at Risk subprogramme and the main programme (Stipendium Hungaricum).

The educational cooperation agreements in effect between Hungary and the Sending Partners **determine which fields of study and scholarship types applicants are eligible for. Under no circumstances may applicants apply for a programme that is not available for their country.** You may check the eligible study fields here: <https://stipendiumhungaricum.hu/partners/>

Applications are based on nationality, i.e., only nationals of the partner countries may apply.

Residence in a partner country does not entitle applicants to apply.

Please note, that applications shall also be submitted to the responsible authority of the Sending Partner. Each Sending Partner **might have different deadlines and requirements** for submitting the application material. **Applicants are strongly advised to contact the responsible authority of their Sending Partner as soon as possible and inquire about the exact procedures.** Here you can find their contact details: <https://stipendiumhungaricum.hu/partners/>

A valid student application may be submitted by the applicant who is an adult and **attains the age of 18 by the commencement of their studies, by 31 August of 2024 at the latest**, except in the case of applicants for the dance arts or applicants with Ukrainian citizenship applying in the framework of the Students at Risk Scholarship Programme.

The rules of the programme do not set a maximum age limit, but all applicants are required to ask the Sending Partners for their own criteria regarding the age limit.

It is very important to emphasise that **your email address should always be available to you in all circumstances** and that you should be able to use the registered email address in the long term. To this end, we ask applicants to **avoid using Hotmail and Yahoo email addresses wherever possible** and to register with a Gmail address instead. It is also important to ensure that the email address will be available for future use, so please **do not use an email address linked to an institution or company**.

Please note that one applicant can submit only one application per application round, and those who apply with more than one account will be automatically rejected during the technical check.

As part of your registration, please be sure to read and accept the consent forms.

The Statement for Application mentioned as a mandatory document in the Call for Applications is not a separate document to be uploaded*. It is a mandatory official consent form to be accepted at the time of registration.

* except for applicants for the Students at Risk Subprogramme, who need to sign and upload the Statement for Application in the online application system, using the following sample:

https://stipendiumhungaricum.hu/uploads/2020/03/statement_for_application_students_at_risk_2024.pdf

Information for applicants who have previously applied through this online system - re-application

If you have applied earlier via the Dream Apply system, you will be able to use your existing account again.

To start the process, please sign in with the email address used in your previous application. If you do not remember your access code, our system will send you a one-time code to access to your account, and choose a new password.

If you do not remember your previous email address, you will need to create a new application using a new email address.

If you have successfully signed in to your account, **you will be able to clone your previous application and the common fields of the new application will be filled out automatically** (later you may edit these fields as well, if any data has changed).

After signing in, please click on the **“Find Programmes”** section.

You will see the following:

Clone your old application?

You are about to start a new application. It seems that you already have an existing application that you can clone. Would you like to start by copying data from your old application? This means less typing for you and is recommended. Alternatively, you can create an empty application and start from scratch.

Application to clone:

No, start fresh

Please, select the **“Yes, clone my previous application (recommended)”** option.

In case you still cannot succeed with the procedure described above, we would like to kindly advise you to register with a different email address and create a new application.

Please note, in case you submitted various applications for the academic year 2024/2025, it will be considered as multiple application and it will be automatically rejected during the technical check.

How to fill the sections?

Priorities

In this section you need to **select the study programmes** you would like to apply to.

Each applicant **can apply for up to TWO different study programmes**, in order of preference. These two study programmes can be both at the same Host Institution or at different Host Institutions; it is the applicants' decision.

Applicants can either submit an application **for non-degree/bachelor's/master's/one-tier master's/postgraduate specialist training courses OR doctoral programmes**, therefore, please carefully consider your selected programme(s).

*Example: You can submit your application to a Non-degree study programme and a Bachelor's programme, but **it is not possible to apply for a Master study programme and a Doctoral study programme at the same time**. If you would like to study at doctoral level, you can only apply for doctoral studies as your first and your second selected study programme.*

In the Hungarian education system, **one-tier master's programmes cover both the bachelor and the master level of studies**, therefore, it is an undivided master programme that results in a master's degree. These one-tier programmes are offered in specific study fields such as general medicine, pharmacy, dentistry, architecture, law, veterinary medicine, etc.

Until the application deadline (15th of January) you can **delete** any selected programme by clicking on the **trashbox** icon and add a new one.

By clicking on the **up or down arrows**, you are also able to **change the order of preference** of your selected study programmes, but you can only change it until the application deadline.

Please note, **the order of preference is essential**. During the application process, **the first selection and examination process will be conducted for the study programmes selected as your first choice**. The first priorities will be considered first and then, only the remaining free places will be filled with those applicants who are not approved for their first choice of programmes. In this way, **the chances of receiving the scholarship are relatively higher for the study programmes selected as first choices because there are more free places at that time**.

Applicants from **Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, Ecuador, Mexico, Panama, Peru, Uruguay and Iraq** are able to apply through different Sending Partners. Your available study programmes depend on which Sending Partner you are applying through. You also need to indicate in which framework you are applying in the Profile section of your application form. Therefore, please be extra careful when selecting your study programmes. If you apply for a study programme that is not eligible for your sending country or partner/region, then you will be automatically rejected.

Before selecting a study programme, please check the following tables to see the available study programmes and sending partners:

- for **full degree programs**:
<https://stipendiumhungaricum.hu/uploads/2020/03/eligible-study-programmes-24-25-full-degree.xlsx>
- for **partial studies**:
<https://stipendiumhungaricum.hu/uploads/2020/03/eligible-study-programmes-24-25-partial-studies.xlsx>

When you select a study programme, **please be extra cautious which study mode** you would like to apply for. If you choose a study programme for **full degree studies**, it means that you are **applying for the whole length of the study programme**. If you choose **partial/exchange studies** it means that you are **applying** for a study programme **for a specific period, not for the whole length of the study programme**. For further details regarding partial/exchange studies please read the **“Other”** paragraph of this Guide. Please make sure that you select the programme marked with the study mode of your desire, because **it is not possible to change neither the study programme, nor the study mode after the application deadline**.

The screenshot shows a list of two study programmes. The first programme is 'Agricultural Engineering', a BSc degree, categorized as 'Bachelor, full degree studies', with 'English' as the language of instruction. The second programme is 'Engineering Management', also a BSc degree, categorized as 'Bachelor, partial/exchange studies', with 'English' as the language of instruction. Each programme entry includes a selection icon (up/down arrows and a trash can) and a university icon.

If you **click on the name of your selected study programme**, it will direct you to the page where **you can read about the specific details** of the study programme, i.e., entry qualification, language requirements, other requirements, programme description etc.)

Applicants are eligible to apply only for those scholarship types and study fields that are determined in the educational cooperation programmes in effect between Hungary and the specific Sending Partner. You may check the eligible study fields here: <https://stipendiumhungaricum.hu/partners/>

Please note, **the request email may arrive to their spam box, therefore, we advise you to inform your teachers before sending out the request.**

If you do not have a “References” section in your application, it is because you are not required to submit a reference for the programme you are applying for.

However, if you still want to submit a reference, please upload it in the **“Documents”** section of your application.

Motivation

The **„Motivation”** section is **one of the most important sections** during the application process. The universities are going to form the first opinion about you based on this document, so it is highly recommended to pay attention to every detail while you are preparing it.

In short, its goal is to answer the question **“Why are you a suitable candidate?”**

Write in a clear and logical manner and remember, the way you write and present yourself says a lot about you.

If the study programme you apply for requests a motivation letter, it will be indicated in the Motivation section, next to the text box. In case you do not see such specific requirement, you may write your motivation letter in a more general form, stating why you would like to come and study in Hungary and become a scholarship holder. Also, it is recommended to write an additional motivation letter (for example to your 2nd preference institution), which you may upload to the Documents Section of your application.

Some **tips and hints** which will help you to write a proper motivation letter:

- Please write at **least 1500 characters**, but **not more than 4000** characters.
- The letter must be written **in English, in Hungarian or in the language of the selected study programme**.
- It is a letter, therefore you must **address it to the Hungarian Higher Education Institution** to which you are applying. **Do not forget about the date and your signature**.
- It should be written in a **letter format** and the three main parts should be easily separable: **1. Introduction 2. Content 3. Closing salutation**.
- **Pay attention to the writing style and grammar**. Keep in mind that this is an important section because the universities will form their opinion of you based on the motivation letter.
- **Provide relevant information** which can be important for the university, and indicate clearly the major you are interested in. Here you can find some useful questions you should answer in your motivation letter:
 - Why have you chosen to apply to this programme?
 - Why did you apply to study in Hungary?
 - What do you expect to gain from your studies?
 - Why does your background make you a suitable candidate?
 - How will the programme help you to achieve your goals?
 - How does your proposed study relate to a particular development, challenge or need at the global, national, and/or local level?
 - How will you utilise your new skills and qualifications when you return home?
 - What challenges would you expect to encounter while studying in a foreign country, and how could you prepare for these challenges?
- Try to **prepare a unique and creative motivation letter**. You should try to leave a positive impression in those who read it and make the selection.

Regarding applications for doctoral degree programmes, please also make sure that:

- Your motivation letter **contains all the relevant information about your professional research plan**, and you state clearly why you would like to pursue doctoral studies in Hungary.
- You give clear reasons **why your research is important**, and your arguments are valid and academically proven.
- You explain **how your previous experience is connected to the research** that you intend to carry out.

Please note, **writing comments in the “Tasks” section does not exempt you from the obligation of uploading a signed declaration.**

In case a yellow exclamation mark  indicating a **“Follow up”** appears in your application, you do not need to worry about it, **it is only a reminder that you will have to upload the missing document/s later in case you get selected.**

Do not forget, **if your original document is in English, Hungarian or in the language of your selected study programme**, you need to select the **“I have uploaded the original and the translation”** and the follow up sign will not appear.

After completing your application, please do not forget to submit your application. Saved applications cannot be considered.

Why is my application “Blocked”?

In case you have a **red**  sign, it means your application is blocked and you cannot submit it, because **you did not upload one/some of the required documents.**

To solve this problem, **please check if you have filled all the fields marked with a red asterisk ***, because they are **obligatory fields.**

Please also **check if you have uploaded all the required documents and selected the proper options in the “Task” section.**

Completing this successfully, you will be able to submit your application.

How can I download/print my application?

Please click on the View button (in the right corner of your application),

following which you will be able to see the **“Print”** and the **“PDF”** options on the left side of the page.

How can I withdraw my application?

If you decide to not proceed with your application, you have the possibility to withdraw it at any time

during the application process by clicking on the  option, after logging in your DreamApply account. If you have already submitted your application to your Sending Partner as well, you are also requested to inform them about your withdrawal. Please note that if you withdraw your application, you will not be able to reverse the withdrawal, so make sure to only click on this option if you are completely sure that you would not like to continue your application.
