Additional Information

Visitor Visa

International exchange students studying in Taiwan for **less than six months** are required to apply for a visitor visa before arriving Taiwan. After your arriving, you cannot apply for the Alien Resident Certificate. You need to apply for extension before your visa expiry date through National Immigration Agency. If the extension is not done before the expiry date, you would have to leave the country.

Resident Visa

International students who plan to study in Taiwan for **more than six months** are required to apply for a resident visa before arriving Taiwan. It is a long-term visa with which the students can stay in Taiwan for more than 180 days. With such a visa, the student should apply for *Alien Resident Certificate* in National Immigration Agency within 15 days after entering the country. The application fee is NT\$1,000.00. The ARC is your ID card, and also a multiple re-entry permit. Please keep it very well during your stay in Taiwan. Six months after receiving the ARC, it's mandatory for you to join the Taiwan's National Health Insurance. In other words, from the 7th month, you have to pay about NT\$749.00 per month for the National Health Insurance. But during the first 6 months of your stay, if you leave Taiwan for more than 1 month, you will be unqualified to join the National Health Insurance. Please think of this reason if you want to leave Taiwan during the summer/winter vacation.
